AUDITOR'S REPORT

On Amounts Paid to Members of The Assembly

To the Legislative Assembly of Manitoba

I have audited the report of amounts paid to Members of the Assembly for the year ended March 31, 2002, being the statement of compensation and the statement of reimbursement of expenses. This financial information reflects amounts paid to Members of the Assembly in accordance with provisions of the Legislative Assembly Act and is the responsibility of the Government of the Province of Manitoba. My responsibility is to express an opinion on the financial information based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial information is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial information. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial information.

In my opinion, this financial information presents fairly, in all material respects, amounts paid to Members of the Assembly for the year ended March 31, 2002 in accordance with provisions of the Legislative Assembly Act.

TABLE OF CONTENTS	PAGE

- Glossary of Terms	6 - 3

GLOSSARY OF TERMS

ACCOUNTS PAYABLE

Accounts payable are comprised of claims on the government based on contracts, agreements or other arrangements for goods or services delivered on or before March 31 which have been invoiced but not paid.

ACCRUED CHARGES

Accrued charges represent amounts provided for or owing by the government at March 31 based on contracts, agreements or other arrangements that will be payable in the future but have not yet been invoiced.

ACCUMULATED DEFICIT

The accumulated deficit is the amount by which the government's expenses have exceeded revenues over time. It includes the net result of the current year as well as the net results of past years.

ALLOWANCE FOR BAD DEBT (DOUBTFUL ACCOUNTS)

An allowance for bad debts (doubtful accounts) represents an estimate of the amounts receivable that will later prove to be uncollectible. The estimate is based on a number of factors, such as the amount of bad debts experienced in one or more past years, general economic conditions, specific information concerning the financial stability of the debtors, the age of the accounts receivables, and other information that indicate uncollectibility. The allowance is deducted from the amounts receivable and the net amount is shown on the Statement of Financial Position as at March 31.

AMORTIZATION OF TANGIBLE CAPITAL ASSETS

Annual provision for the cost of tangible capital assets with limited useful lives are used in the delivery of government programs. Tangible capital assets acquired in the past as well as those to be acquired in the current fiscal year have an associated expense over the entire useful life of the asset according to pre-determined amortization rates. Recognizing amortization in this way allocates the cost of tangible capital assets to the periods of service provided.

AMOUNTS RECEIVABLE

Amounts receivable are comprised of amounts owing by debtors that are expected to be collected within the next fiscal year. The balance outstanding as shown on the Statement of Financial Position as at March 31 has been reduced by an allowance for bad debts (doubtful accounts).

BORROWINGS

There are three components to this figure.

The first component is funds borrowed in the domestic and global capital markets to fund general government programs, Crown organizations and government enterprises. This debt is commonly referred to as Direct Debt.

The second component is funds borrowed by Crown organizations and obligations of government enterprises which have been guaranteed by the Province.

The third component is sinking funds providing for the repayment of debt, which is subtracted to arrive at the Net Direct and guaranteed debt of the Province.

The breakdown of debt is of general purpose and self sustaining nature. General purpose debt is to fund general government programs; self sustaining debt is to fund the Crown organizations and government enterprises which are expected to repay the debt and the related interest costs from their operations.

BUDGETARY SURPLUS (DEFICIT)

Budget surplus is represented by the excess of total operating revenue over the aggregate of total operating expense and net capital expense prior to any net revenue transferred to the Fiscal Stabilization Fund.

CAPITAL EXPENSE

Capital expense includes the acquisition or construction of fixed assets which have a useful life in excess of one year, major renewals, modifications or modernizations expected to significantly prolong the economic life of an asset. It also includes grants or assistance payments which are known to be for the purchase, construction or improvement of physical assets.

CASH AND EQUIVALENTS

Cash and equivalents represent cash on hand and in banks as well as term deposits and other short term investments.

CONTINGENT LIABILITIES

A contingent liability exists when it is likely that a condition existing at March 31 will result in a loss through either the impairment of an asset or the incurrence of a liability.

CURRENT PROGRAM EXPENSE

Includes the cost of all government programs excluding debt servicing costs.

DEFERRED REVENUE

Deferred revenue consists of funds received which relate to future years, as well as fees from debt transactions to be amortized over the remaining life of the debt.

FEDERAL RECOVERIES

Federal recoveries represent revenue related to capital expenses incurred by the government that are recovered from the federal government.

FEDERAL TRANSFERS

Comprises the total of all revenue entitlements that are either received or receivable from the Government of Canada.

FINANCIAL ASSETS

Financial assets are those on hand at the end of an accounting period which could provide resources to discharge existing liabilities or finance future operations.

GENERAL PURPOSE DEBT

Is the total of all debt used to fund general government programs.

GROSS DOMESTIC PRODUCT (GDP)

Represents the total market value of all final goods and services produced in the Manitoba economy. The GDP was obtained from reports published by Statistics Canada.

GUARANTEED AND INDIRECT LIABILITIES

The government guarantees certain of the debt instruments issued directly by entities within the government reporting entity. As a result, the government is liable only if the entity defaults on its obligations.

LOANS AND ADVANCES

These amounts are advanced or loaned to, and are owed by, Crown organizations, government enterprises and other entities.

LONG-TERM INVESTMENTS

Long-term investments are comprised of shares and debentures of Crown organizations, government enterprises and other entities. Valuation allowances are deducted from the amount of long-term investments shown on the Statement of Financial Position as at March 31.

NET CAPITAL EXPENSE

Net capital expenses are represented by the excess of capital expenses over federal recoveries.

NET RESULT FOR THE YEAR

The net result for the year represents the operating deficit or the operating surplus remaining after any net revenue transferred to the Fiscal Stabilization Fund.

OPERATING EXPENSE

Operating expense is comprised of amounts paid or payable in relation to the current year's operations and excludes capital expenses as well as any transactions related to the repayment of borrowings, the acquisition of long-term investments, or the issuance of loans and advances.

OPERATING REVENUE

Operating revenue consists of amounts received or receivable in relation to the current year's operations and excludes federal recoveries as well as any transactions related to the acquisition of borrowings, or the repayment of long-term investments or loans and advances.

OPERATING SURPLUS (DEFICIT)

An operating surplus occurs when total operating revenue exceeds total operating expenses for a given year.

OTHER DEBT

Represents the self sustaining debt that is used to fund Crown organizations and government enterprises excluding The Manitoba Hydro-Electric Board.

OWN-SOURCE REVENUE

Includes provincial revenue either received or receivable from all sources excluding federal transfers and recoveries.

PROVISION FOR FUTURE LOSSES ON GUARANTEES

Such provisions are made to reflect the liabilities associated with the estimated cost of future losses where there is both reasonable certainty that the loss will occur as well as a basis for estimating such losses.

SINKING FUNDS

Sinking funds are funds that are set aside to provide for the orderly retirement of debts as they become due. Contributions occur over time and at a fixed rate in accordance with the legal requirements of the debt instruments, the Financial Administration Act and specific legislation of the government enterprises. These contributions are not considered to be expenses.

TANGIBLE CAPITAL ASSETS

Tangible capital assets are non-financial assets having physical substance (including computer software) that are acquired, constructed or developed and:

- i) are held for use in the production or supply of goods and services;
- ii) have useful lives extending beyond an accounting period and are intended to be used on a continuing basis; and
- iii) are not intended for sale in the ordinary course of operations

VALUATION ALLOWANCE

Valuation allowances are provided to reflect decreases in the realizable value of loans and advances and long-term investments.
